

Reference

I've known Graham for about 10 years now and I've always found him very easy to work with understanding his work ethic and his methods. Even from a young age whilst at Rotherham United academy I always enjoyed the training sessions, games and having him as a coach. He did well at making it enjoyable yet challenging and personally he improved me as a player and really helped me through the years to achieve a scholarship which led to a professional contract and numerous football league appearances. Graham also had a big influence on my decision to return to Rotherham United at the age of 15. I had took a couple years out of football and was only playing local football where he approached me after seeing me play again and advised me to go back to Rotherham as he thought I still was capable of achieving greater things. I feel he is a very approachable man with great character. He has a willingness to succeed and very likeable attributes which are seen in the way he values his family. I'm very grateful for what Graham has done for me playing a part in my football career.

Regards

Nicky Walker – Professional Footballer at Rotherham United Football Club
